Sit back, relax, and let the eReflex 150RW deliver more than a fireside glow.

Featuring Gazco's Chromalight® technology, the eReflex 150RW elegantly puts the artistry of fire right at your fingertips. With an Eco Remote Control, plus compatibility with an innovative app, you can adjust the multiple immersive lighting options all from the comfort of your favourite chair – finding the perfect ambience to suit your mood, along with a host of energy-saving features.

This electric fire is designed to make the perfect companion to media walls, whether you opt for a classic single-sided installation, or adventure to a multi-sided or corner aesthetic. An optional mood lighting kit lets you enhance your space, with up to 6 metres of LED lighting for accompanying shelves or around your TV.

The eReflex 150RW brings electric heat to life with its combination of highly-realistic fuel effects, ember bed and dancing flames – plus, enjoy the visuals with, or without, the heat.

Key Features

- Can be easily configured as a three-sided, two-sided, or single-sided fire

- Chromalight® LED System

- Comes with life-like Oak Log effect, or the alternative Crystal Ice effect

- Pulsing glowing embers for realism

eReflex 150RW with Oak Log effect, shown as a two-sided installation

Ambience on command

Two complimentary control systems put the eReflex 150RW's range of visual and heating capabilities in the palm of your hand. Adjust your desired fireside ambience... and relax.

eReflex 150RW App for complete control

The eReflex 150RW can be controlled with a powerful app, available on an iOS or Android smart device. This app offers the same ability to control your fire remotely, but with the ease of access from your phone or tablet.

Finer Tuning

The app displays all settings clearly on your smart phone or tablet, giving you precision control over the fire's Chromalight® LED systems. Lighting settings are easily adjustable thanks to the app's slider controls.

Programmable thermostatic heating and flame visuals

Just like the Eco Remote Control, easily program your fire to provide different heating schedules using the app. Create up to four daily heating schedules to suit your lifestyle, with room to save up to three weekly programs. Flames and lighting visuals can also be scheduled if desired.

**Download the app** using the QR code, or search for MusFlame on the App Store. **gazco.com/electricapp**
