Side Unit in Blonde Finish

Side Unit in Rosewood Finish

Maine 70 Base Unit and Top Shelf in Grey Pearl

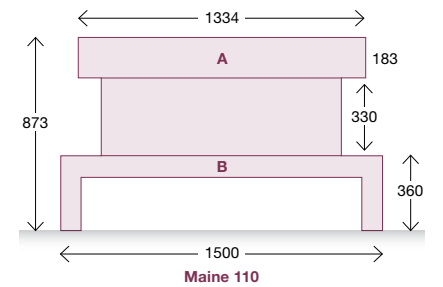

Maine 70 Base Unit in Grey Pearl Floor Shelf in Grey Pearl Side Unit in White 1000 Wide Chimney (wallpaper not included)

Maine

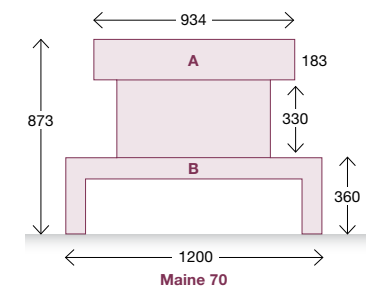

Choosing an attractive fireplace is an important factor when redesigning the décor of your living space.

This brochure presents a stunning selection of fireplaces featuring the eReflex electric fire with its superb flame picture.

All the designs are available in a wide range of colours and finishes ensuring that the fireplace you choose will be ideal for your room.

Both A and B are 300mm deep (from wall to front of unit)

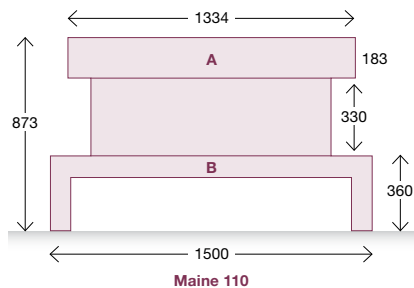

Maine 110 Base Unit in Grey Pearl 1200 Wide Chimney in Primed White

Maine

Both A and B are 300mm deep (from wall to front of unit)

See page 11 for details of our 'easy assemble' lightweight Chimney Breast.

Maine 110 Base Unit in Blonde Finish Side Units in Blonde Finish Media Shelf in Black Oak Finish 1200 Wide Chimney in Primed White

The Maine fireplace is tremendously versatile. Two basic sizes are available to match either the 70w fire or the 110w fire and both of these fireplaces can be altered in size to suit your particular requirements.

Further options include adding side units to the left and right of the fireplace and these can also be made to any length – possibly even to provide space for a television. Another idea would be to have a Floor Shelf or a Media Shelf beneath the Base Unit.

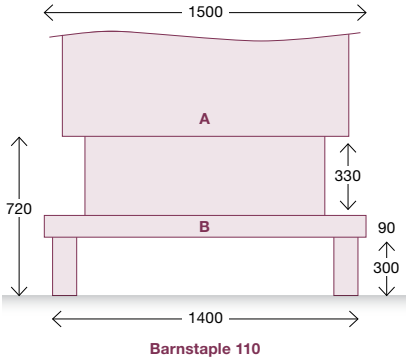

The final touch would be some matching display shelves. These are very stylish and can of course be made-to-measure and secured to the wall using our fabulous Easy-fix system.

Barnstaple

If you are looking to create a more 'Country' look to your living space the Barnstaple fireplace would be ideal. Made from solid oak beams, it features knots and splits that create a truly authentic appearance.

Both A and B are 300mm deep (from wall to front of unit)

See page 11 for details of our easy assemble Chimney Breast.

Note: 'Rustic Oak' has slightly distressed edges and smooth surfaces whilst 'Aged Oak' has more distressing on the edges and a textured surface.

Barnstaple 110 Base Unit: Rustic Oak in a Light/Medium Finish 1200 Wide Chimney in Primed White

Introducing the new
**MADE-TO-MEASURE
 TV CHIMNEY BREAST**

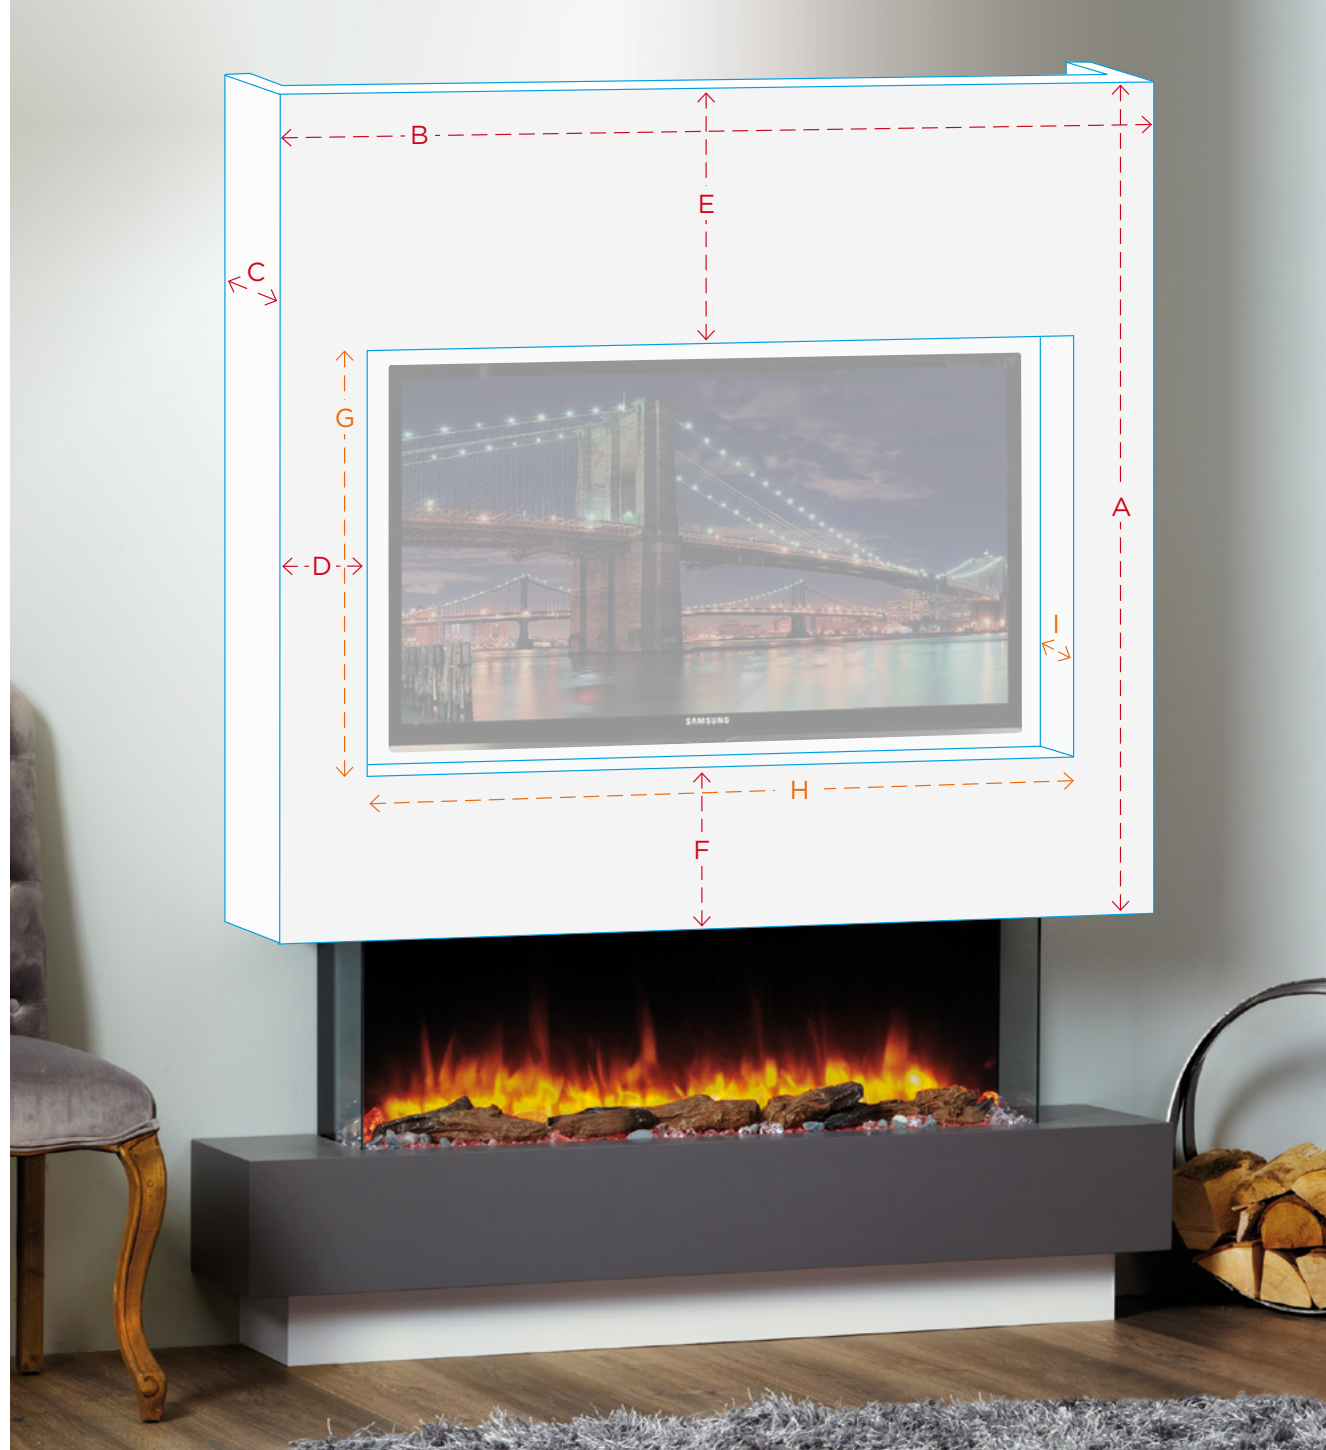

for electric fires

- H = TV Recess Width _____ mm
- I = TV Recess Depth _____ mm

Kentucky 70 Base Unit: Aged Oak in a Medium Finish 1000 Wide Chimney in Primed White

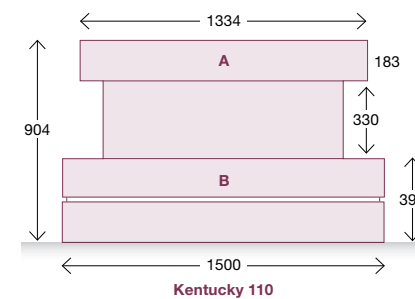

Kentucky 110 Base Unit in Walnut Finish 1200 Wide Chimney in Primed White

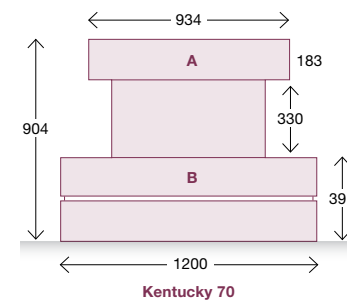

Kentucky 70 Base Unit and Top Shelf in Grey Washed Oak Finish

Kentucky

Both A and B are 300mm deep (from wall to front of unit)

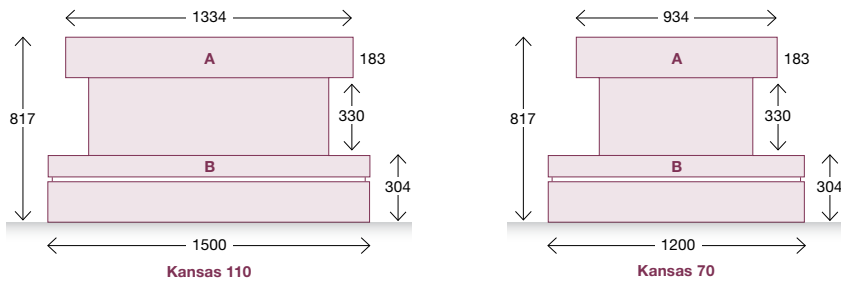

Kansas

The Kansas and Kentucky fireplaces offer an almost limitless number of options. They can be supplied either with a Top Shelf or a Chimney Breast. The back page of this brochure shows all the different choices of timber finishes and painted finishes that these fireplaces can be produced in.

Kansas 70 Base Unit and Top Shelf: Rustic Oak in a Light/Medium Finish

Kansas 70 Base Unit in Grey Washed Oak Finish with Top Shelf in White Finish

Both **A** and **B** are 300mm deep (from wall to front of unit)

Nevada

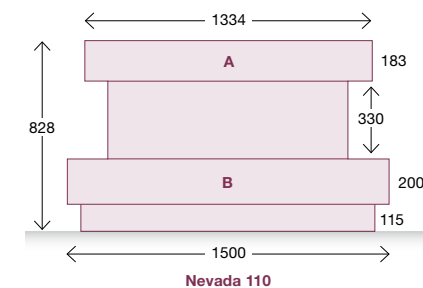

Nevada Base Unit in Grey Pearl and White Finish 1200 Wide Chimney in Primed White

Nevada Base Unit in Grey Pearl with Top Shelf in White Finish

The floor-standing Nevada fireplace can be made to suit the 70w eReflex fire as well as the 110w versions. The illustrations show how two completely different effects can be achieved against a flat wall. See the back page for all the finishes that are available for the Nevada.

Both **A** and **B** are 300mm deep (from wall to front of unit)

Introducing the new
**‘EASY ASSEMBLE’
 LIGHTWEIGHT
 CHIMNEY BREAST**
 for electric fires

Takes the time and stress out of
 building a chimney breast.

No Framing | No Plasterboarding | No Plastering

4 STANDARD SIZES:

- 1000mm (w) x 1450mm (h)
- 1000mm (w) x 1900mm (h)
- 1200mm (w) x 1450mm (h)
- 1200mm (w) x 1900mm (h)

Note:

Chimney breasts can
 be made-to-measure
 (all sizes are always
 300mm in depth)

The support frame is fixed to the wall leaving a small gap above the fire to avoid resonance.

The right hand panel is then fixed onto the support frame by screwing through the pine batten.

Repeat the process with the left hand panel.

The front panel is fixed in position with panel pins. These are nailed through pre-drilled holes in the side panels.

To finish. Use a fine nail punch to sink the pins below the surface. Then apply a small amount of Pollyfilla to fill the joint and the pinholes.

Finally...

Sand flat the joint
 and the pinholes.

Your chimney
 breast is ready
 to top coat.

Texas 70 Base Unit in Grey Washed Oak Finish 1000 Wide Chimney in Primed White

Texas 70 Base Unit and Top Shelf: Rustic Oak in a Medium Finish

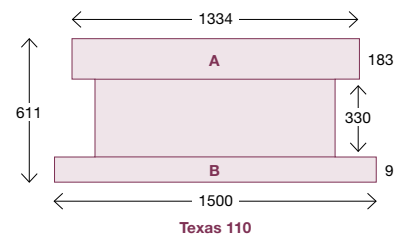

Texas 70 Base Unit and Top Shelf: Round Edge Oak in a Natural Finish

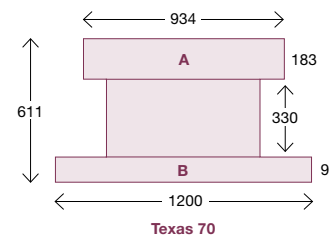

Texas

All the designs in this catalogue can be altered to suit your individual requirements. The illustration to the left shows how the Texas fireplace has been made longer on the right-hand side to provide some extra display space.

The two designs on this page are very similar but the Tennessee fireplace has a deeper base unit than the Texas.

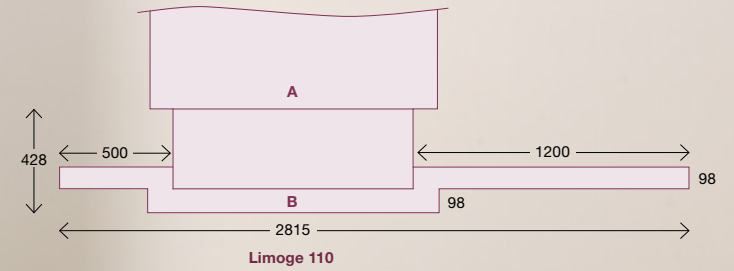

Both A and B are 300mm deep (from wall to front of unit)

Tennessee 70 Base Unit: Round edge oak in Light/Medium Finish with Top Shelf in Grey Pearl

Limoge

Both A and B are 300mm deep (from wall to front of unit)

Limoge 110 in Zebrano and Black Oak Finish 1200 Wide Chimney in Primed White

The wall-mounted Limoge fireplace looks stunning in Zebrano finish and it is a design that can be easily adapted to suit your individual requirements.

The Cherbourg fireplace is similar to the Limoge but it is floor-standing with a plinth.

Both fireplaces are available in all the timber and paint finishes that are shown on the back page of the brochure.

You can practically design your own fireplace!

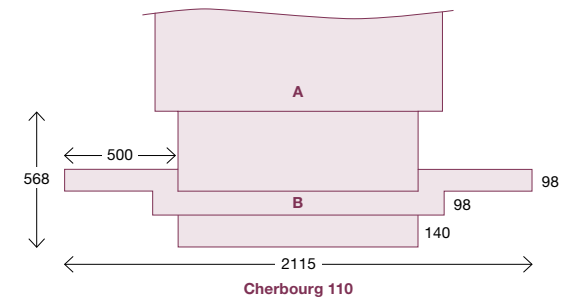

Cherbourg 110 in Walnut Finish 1200 Wide Chimney in Primed White

Cherbourg 110 in White Finish 1200 Wide Chimney in Primed White

Cherbourg

Both A and B are 300mm deep (from wall to front of unit)

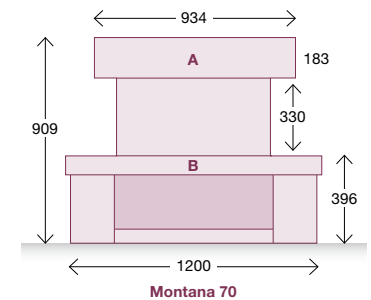

Montana 110 Base Unit in Bianca and Midnight Finish Top Shelf in Bianca Finish

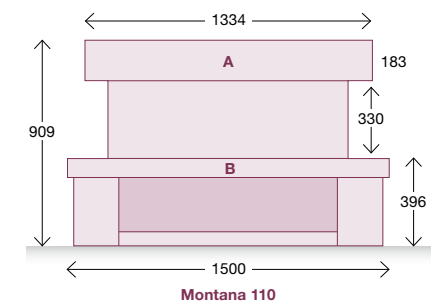

Both the Montana and Missouri fireplaces would look ideal either with a Top Shelf or a false Chimney Breast.

Where space is restricted a smaller version of the two designs can be supplied which accommodate the smaller 70w eReflex fire.

Montana

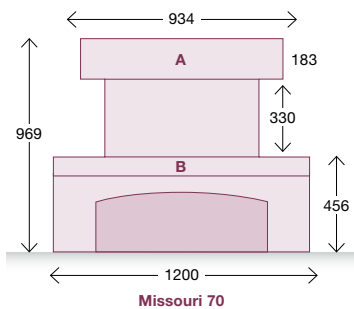

Both **A** and **B** are 300mm deep (from wall to front of unit)

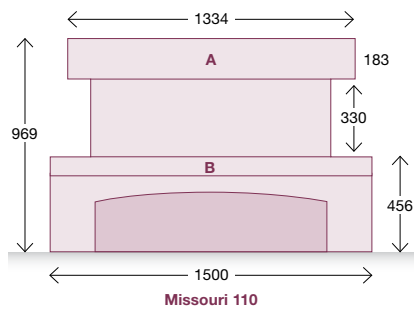

Missouri 110 Base Unit in White and Midnight Finish
Top Shelf in White Finish

Missouri

Both **A** and **B** are 300mm deep (from wall to front of unit)

Missouri 110 Base Unit in White and Midnight Finish 1200 Wide Chimney in Primed White

Shelves

HS100 Shelf made to special dimensions:
Round Edge Oak in a Light Finish
Also shown HS70 Display Shelves
in Light Oak Finish

HS100 Shelf made to special dimensions in White Finish
Also shown S30 Display Shelves in White Finish

Introducing shelves into your living space can have a dramatic effect.

Here the inset eReflex 105R has a made-to-measure shelf extending across the front of the chimney breast making a bold statement.

Additional display shelves to the side further enhance the look.
All shelves can be manufactured to your exact sizes and in many cases they will be compatible with our Easy-fix system.

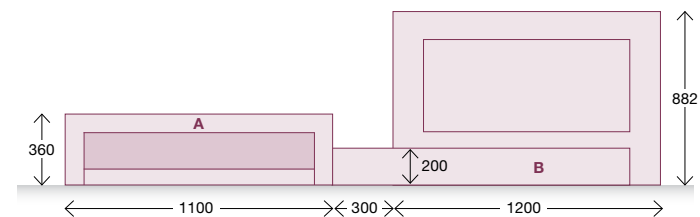

Ripon

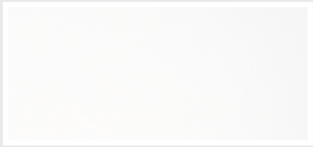

Ripon in White and Grey Pearl Finish

For a truly 'integrated' look the Ripon combines a fireplace for the eReflex 85R electric fire with a media centre that would be ideal for your television and Sky boxes etc. The Ripon suite can also be made larger to accommodate the longer eReflex inset electric fires such as the 105R or the 135R.

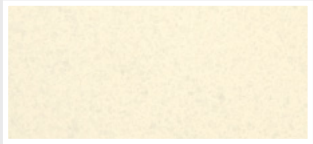

Both **A** and **B** are 300mm deep (from wall to front of unit)

Electric Fireplaces featuring the **eReflex** ELECTRIC FIRE

Complement your fireplace with matching Display Shelves – made to suit your individual requirements

Produced in four thicknesses:

30mm – available in oak or painted

45mm – available in oak, painted or veneered

70mm – available in oak, painted or veneered

100mm – available in oak, painted or veneered

See pages 4 and 18 for examples

All painted finishes are applied onto fireplaces made from high quality medium density fibreboard.

Grey Washed Oak, Walnut, Blonde, Rosewood, Zebrano and Black Oak are premium quality veneers based on high quality medium density fibreboard.

Light Oak, Light/Medium Oak and Medium Oak are different shades applied to solid oak beams or panels.
